Islamabad, Pakistan

SUMMARY

A self-driven Computer Science student with hands-on experience in **full-stack development** & **AI-driven products**. Seeking **AI Engineering** and **Software Development internships** to apply expertise in modern AI tools, software development, and problem-solving. Eager to contribute to **innovative, AI-driven products** in a collaborative team environment.

EXPERIENCE

- **AI Social Media Content Generator** | December 2025 (Individual Project)

Built an intelligent web app using HuggingFace's Llama 3.2 and a serverless Vercel backend to generate tailored social media captions and hashtags per platform in seconds

Live: ai-social-content-generator.vercel.app

- **Connect - Event Discovery Platform** | Fall 2025 (Led a Team of 3)

Built a full-stack event platform with synchronized Android and Java desktop apps, managing the entire UI/UX design and development lifecycle

- **Instagram Clone** | Fall 2025 (Led a Team of 2)

Developed a fully-featured Instagram replica with authentication, posts, stories, likes, direct messaging, audio/video calls, real-time feeds, etc.

- **TravelEase – Multi-Portal Management System** | Spring 2025 (Led a Team of 2)

Built a desktop application for travelling management with 4 user portals (Traveler, Organizer, Service Provider, Admin) using C# and SQL with role-based access controls.

- **GitLite – Version Control System** | Fall 2024 (Led a Team of 3)

Implemented a lightweight version control system using advanced tree data structures (BST, B-Tree, Merkle Tree) to manage .csv file versioning via console interface.

- **Air Traffic Control Simulation** | Spring 2025

Simulated a real-time air traffic control system with concurrent aircraft management using C++ multithreading and mutex locks for conflict detection.

- **Plants vs Zombies – Game Development** | Spring 2024 (Led a Team of 2)

Recreated Electronic Art (EA)'s classic game with complete mechanics (plant types, zombie waves, resource management) using C++ OOP and SFML.

TECHNICAL SKILLS

Programming: C++, Python, Java, JavaScript, SQL

Web: HTML/CSS, React, Node.js, XML

AI: HuggingFace, LLMs, Prompt Engineering

Tools: Git, Docker, Figma, Notion, Canva, Android Studio, VS Code, Jupyter, Colab, Kaggle, etc.

SOFT SKILLS

- Excellent English communication skills
- Proven record of leading teams effectively
- Out-of-the-box problem-solving skills

CERTIFICATIONS

- Google Soft Skills Certificate – Issued by Google
- Green Ambassador – World Wildlife Fund

EDUCATION

- **Bachelor of Science in Computer Science (Current Semester: 6)**

FAST NUCES Islamabad | Expected Graduation: August 2027

CGPA: 3.53 (Semester 1-5)

- **A Levels**

Future World School H-11/4 Islamabad | 2021-2023

3 A's in Computer Science, Mathematics & Physics (Other Coursework: Further Mathematics & Sociology)

- **IGCSE**

Roots Millennium Flagship Campus I-9/3 Islamabad | 2018-2021

8 A's (of which 6 A*s) in Additional Mathematics, Computer Science, Mathematics, Physics, Chemistry, and more
